

## NUC Approves McPherson's Bachelor in Nursing Degree Programme

*...Admission starts immediately*

After weeks of waiting, the good news from the National Universities Commission (NUC), 'flew-in' in style on Tuesday, January 21, 2020, revealing one of the greatest news this January – the approval of the Institution's Bachelor of Nursing Science Degree Programme.

The Vice-Chancellor, Professor Adeniyi Agunbiade, who shared this great news with members of staff at the staff morning devotion on Wednesday, January 22, appreciated the University Community for its prayers and sacrifice during the Nursing Science Resource Verification (RV) exercise held in November, 2019.

According to him, members of staff and students, in general, sacrificed a lot during the exercise.

“Our students really prayed and lent helping hands during the Resource Verification of programme. Members of

staff equally prayed and worked tirelessly. I have received the letter conveying the approval from NUC for McPherson University to start running degree in Nursing Science. This is a proof that God answers prayers. The letter authorized us to commence admission into the programme immediately”, the Vice-Chancellor added.

The letter from the apex universities' regulatory body, sighted by our correspondent, equally approved the commencement of the Faculty of Basic Medical Sciences in McPherson University.

Meanwhile, it was reliably gathered that a Bachelor of Nursing Science degree (B.N.Sc.) will be awarded to students after completing their 5-year studies and not Bachelor of Science (B.Sc.).
